

Schwanenhals
1x Federn 3

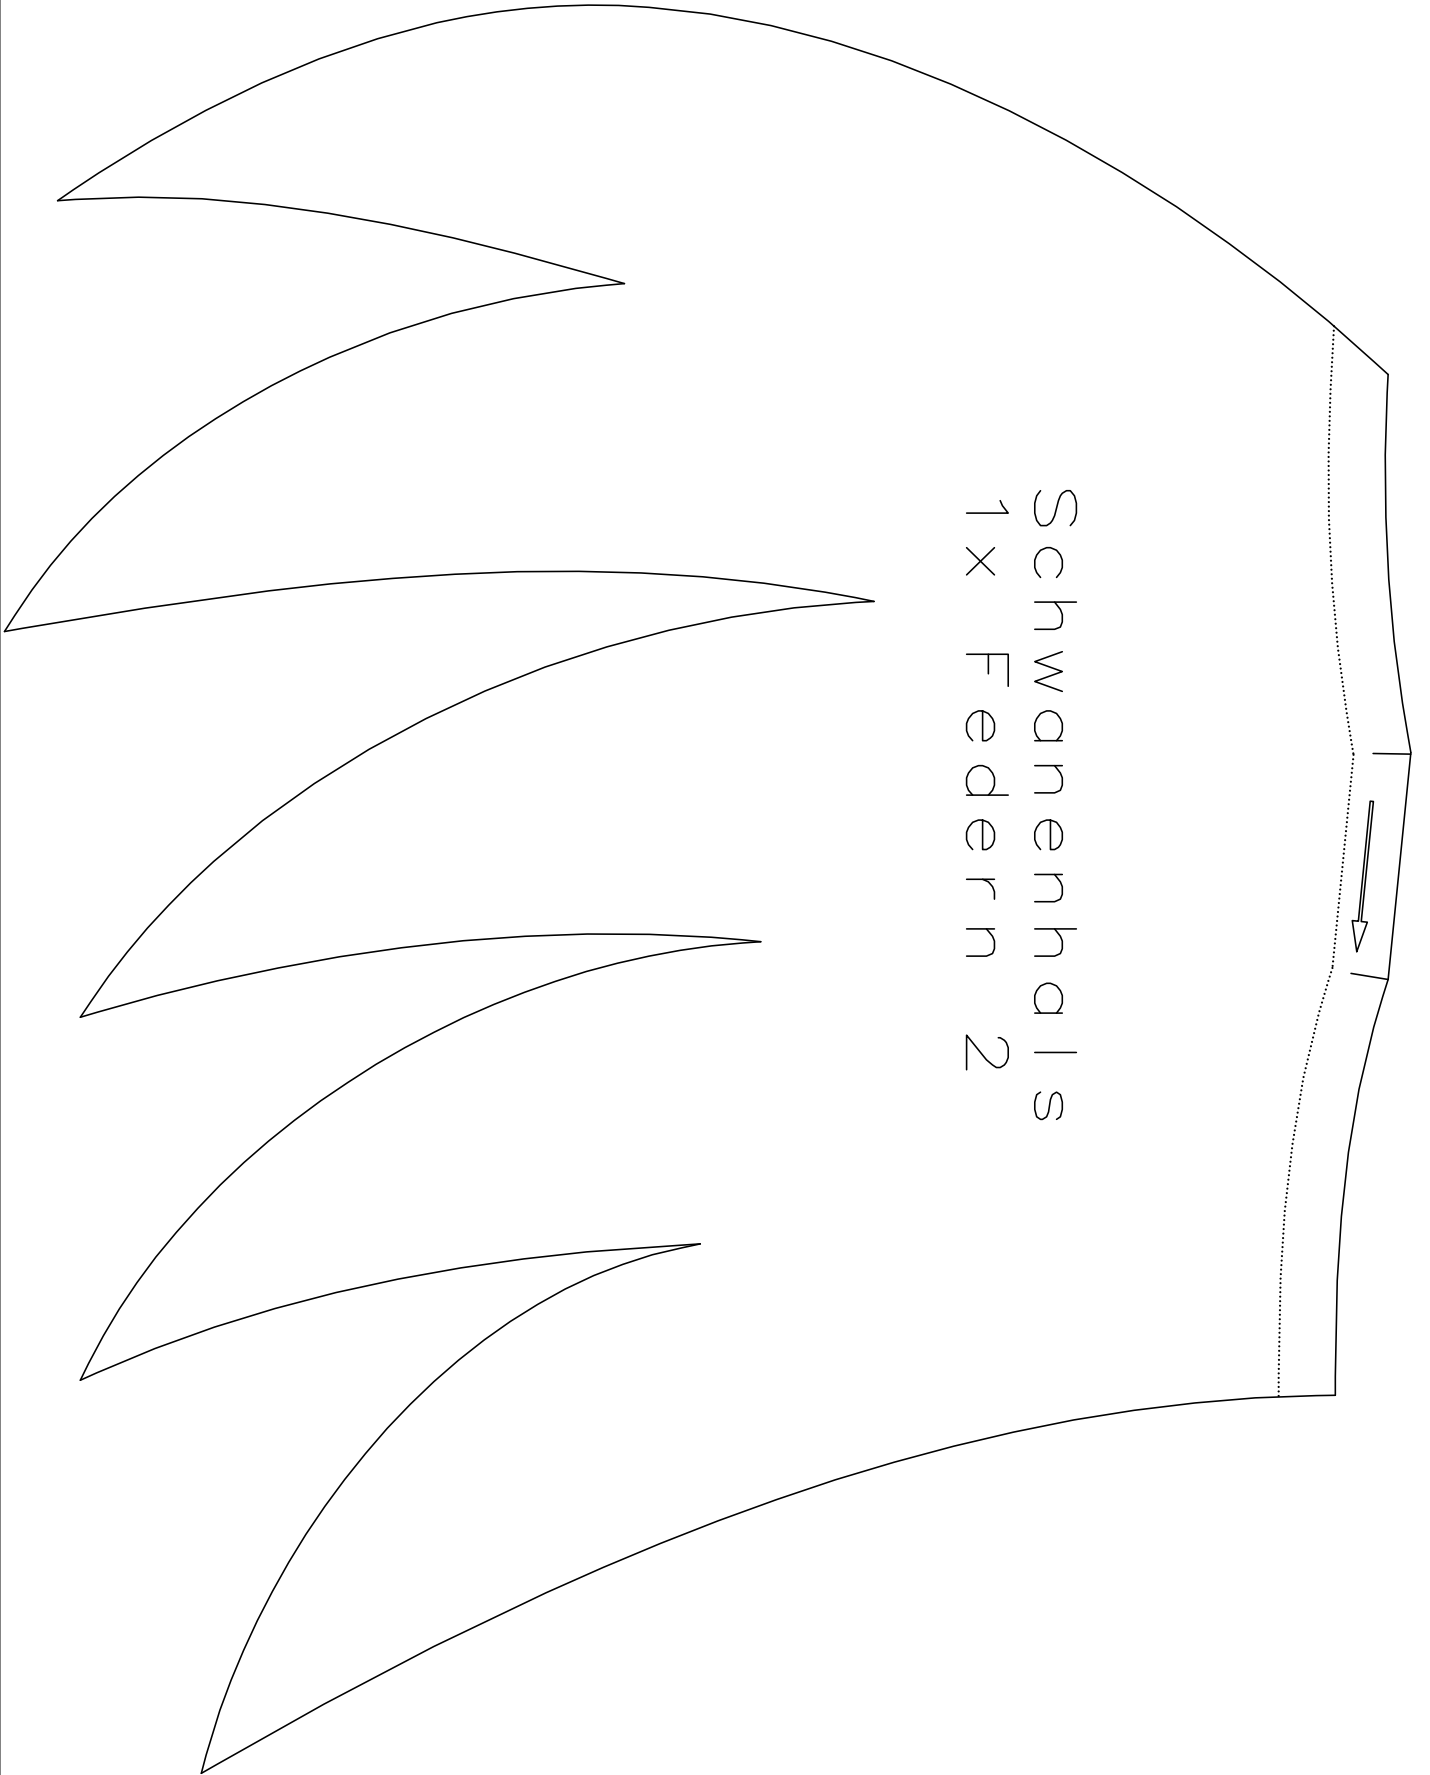

The image shows a technical drawing of a pattern piece for a swan neck. The pattern is a large, roughly trapezoidal shape with a curved left side and a slightly curved top edge. A dotted line runs parallel to the top edge, indicating a seam allowance. Below the main body of the pattern, there are four pointed, teardrop-shaped pieces, each with a curved outer edge and a pointed tip, representing the 'Federn' (feathers) mentioned in the text. The entire drawing is enclosed in a rectangular border.
